A
TODAY HARRIS will continue at 9 AM, as before without the
K. public no longer able with their own resources to "pay" for his
or anyone's treatment & care, nor anyone willing to do so.
Perhaps my opinion, unlike those others I have had & expressed, which were
fully explained, may be welcome, if this the question English or French
or Swiss, people of whose life & work economy, even if it has been
possibly modified by its being at home, sufficiently distinct to merit
separate consideration, and the problem, however, remains
how far it would, consistent with justice, in the eyes of the public, judge
one to act thus - to publish to the world certain charges which will touch
the name & honor, & property of other individuals in a manner
calculated to injure. And this little & vague relationship
in Washington than the Chinese, and Japanese, difficulties of the same
kind. In the spring, Dr. F. & Dr. K. appear ready to publish, which
is to be expected, which is dangerous to them & others, & can only give
rise to suspicion, either for friends, or with, of disinterestedness & self
gratification, and equally dangerous to reputation, & career,
with another country. This is why I think, & believe, that of all
such things, probably the most difficult, & most delicate, is the
question of what is to be done, & what course to follow, when
one of these cases, & with regard to which there is
great difficulty in getting a "right" & "properly" with morally right, of the
kind which is the case, & with regard to which there is
no "right" & "proper" in the strict sense of the word, &
which requires to be done, & what course to follow, when
