

Sevaze pro. Kope!

[illegible]

Sept

[illegible]

In the first part of the manuscript, the author discusses the nature of the human mind and its capacity for knowledge. He argues that the mind is not a blank slate, but is filled with ideas and impressions from birth. These ideas are then shaped and refined through experience and education. The author also discusses the importance of reason and logic in the pursuit of knowledge, and how these tools can be used to understand the world around us.

Die Examenen in hiesiger Universität, angeordnet die bei den Vorlesungen die Examen
1. bis 6. in der folgenden Weise zu beenden —

7. 19. Decemb. 1828.
