3. But we must not think that the only way to
save the Republic, is to get rid of the
President, and to elect a new one. It is not
enough to get rid of the President, we must
also get rid of the system which has
produced him. We must get rid of the
system which has made the President
a mere figurehead, and which has
made the people a mere tool. We must
get rid of the system which has made
the President a mere figurehead, and
which has made the people a mere tool.
We must get rid of the system which
has made the President a mere figurehead,
and which has made the people a mere tool.
We must get rid of the system which
has made the President a mere figurehead,
and which has made the people a mere tool.
