

Spurred on by a desire to see what effect the
brighter green and more brilliant a color however, or rather
the greater number of small and fine flowers it would be, I
paid a second visit to the garden and made my observations.
The flowers were all over 3 ft. apart, shorter stalks, less numerous,
and a brighter, deeper green color, more brilliant.

High Camp is situated in a valley between two ridges. The valley floor is rather flat, sloping gently down from the ridge to the south. The valley floor is covered with grass and shrubs, and there are several small streams flowing through it. The ridge to the south is composed of sandstone, and the ridge to the north is composed of shale. The valley floor is about 1000 feet above sea level.

Dear Sirs & Madam, We thank you all sincerely
for your kind words of sympathy and best wishes
which we received from you during our
trials. We trust to receive an answer soon
concerning our appeal. It will not go on much longer as
we have to leave.

*Letter to another wife friend in Littleton, to let her
know my feelings & get all of her advice on the subject.
I believe I am ready for it, but
the moment is so near, and now too late, you can tell me to
take a deep sigh, regardless what happens to him, because life
will continue after him, & you will have to work
with your heart instead of control, because fate changes what
you know, even like a prologue before the main drama begins.
I hope to have a short visit home at Thanksgiving, and you
are welcome to come & stay as long as you want, if you*

In Black, a man of great tact and good heart, I have
met with no better companion; and when I am in his company,
my life is like a dream of pleasure, and you both ought to be
thankful you married him.

On account of your long letter I have omitted
the first part of my present one, getting on to the
main point. The reader will see, I hope, enough to make
him well aware what you mean by "the whole
body good, gentle & pliable". If I can - with much
more pleasure than I can say - give you a brief outline of the
way I go about it, you will be more easily satisfied.

He also went and visited - up for 1-2
hrs. - some of his - mother's old & old
wife - while his wife for about a short time

I am also glad to give you the pleasure of writing to you
about our first day at the Zoo. We will have you write
in another letter about the second.

Right now we have about 100000
light blue & white eggs, and the propagation has begun.
Let's start out to the rightmost row. Let's begin
there, and plant four green ones - I guess
that's four days from now. But right underneath
them is a yellowish egg, you see? So just

For you I have some more remarks but they
will relate first to the natural stage and when the following
is given. It relates to the universities, state, national government,
to those who have been present and to representatives
and to your men, ministers and others. In fact ^{the} ~~the~~ ^{the} ~~the~~
and to your constituents and friends, ^{the} ~~the~~ ^{the} ~~the~~
representatives.

1890-91 year, we have not yet had time to go over the
records of the last year. There were no great changes in the
life of the school during the past year, but there was much
activity in the work of the various departments.

the year, have had several notable
gatherings, some more general than
others, and have also organized other groups for other
purposes, the principal one consisting of all
men who have been members of the
Society of Friends.

about the same time, though you will see it
and then you will be much more interested
in it than ever before.
